FOR IMMEDIATE RELEASE
October 9, 2009

SHAFFER • BAUCOM ENGINEERING & CONSULTING ADDS SENIOR STAFF

Lakewood, CO – Shaffer • Baucom Engineering & Consulting, a full-service Mechanical and Electrical Engineering Design Firm, announced the expansion of their team with the hiring of Mr. Keith Prokuski, Senior Mechanical Designer, and Mr. Dave Wilk, Senior Construction Administrator.

Mr. Wilk, Senior Construction Administrator, has more than 18 years of experience in the design and construction industry combined with 6 years of CAD and 3D modeling experience. He has served as a Journeyman, Foreman, General Foreman, Project Engineer and CAD Coordinator for a variety of clients including Craig Hospital, The Children’s Hospital, University of Colorado, Pepsi Center, University of Denver and more. Mr. Wilk’s experience in the many different facets of the construction industry has provided him with the knowledge needed to proactively oversee the design and construction process so that project delays and critical costs can be avoided.

Mr. Prokuski, Senior Mechanical Designer, has more than 30 years of design experience in the mechanical engineering industry. Since 1975, he has been involved in the design of HVAC and plumbing systems for healthcare, higher education, K-12 education, commercial, residential and municipal projects. Mr. Prokuski has provided lead design services for a variety of high profile projects over the last thirty years including the York County Justice Center in South Carolina, PDC Laboratories in Illinois, Interlocken Advanced Technology in Colorado and more. In addition, Mr. Prokuski has extensive project management and cost estimating experience.

Shaffer • Baucom Engineering & Consulting is a full-service Mechanical and Electrical Engineering Design Firm specializing in LEED® compliant design and documentation, sustainable design and the design of healthcare facilities, high-tech research laboratories, higher education facilities, K-12 facilities, aerospace facilities, bio-hazardous facilities, central utility plants, pharmaceutical production plants, clean rooms, commercial and medical office buildings, master planning, systems analysis and forensics.
